**DESCRIPTION**

The cable guide roller - chain is extremely versatile and can be used for pulling cables gently around corners with the least possible resistance. Thanks to its adaptability, it can be used for a wide variety of situations and corners or edges. The cable guide roller - chain can be optionally expanded with additional rollers or links. It can be secured in place with a belt or screws via the assembly opening. The lightweight and highly robust design reduces the effort required with optimum success. The high-quality, die-cast aluminium rollers with integrated ball bearings and the sturdy powder-coated steel frame guarantee a long service life. Ergonomic aluminium handle - Load capacity 4500 kg

**Optimum area of application:** suitable for universal use, shafts, cable trays, columns, etc.

**Application video:** a short, very informative application video can be viewed by scanning the QR code or on [www.RUNPOTEC.com](http://www.RUNPOTEC.com).

**Scope of supply:** 1 x Cable guide roller - chain

**ADVANTAGES**

- Aluminium heavy-duty rollers with stainless steel ball bearings
- Robust metal frame
- CDP and powder coated
